

# AquaCell Eco

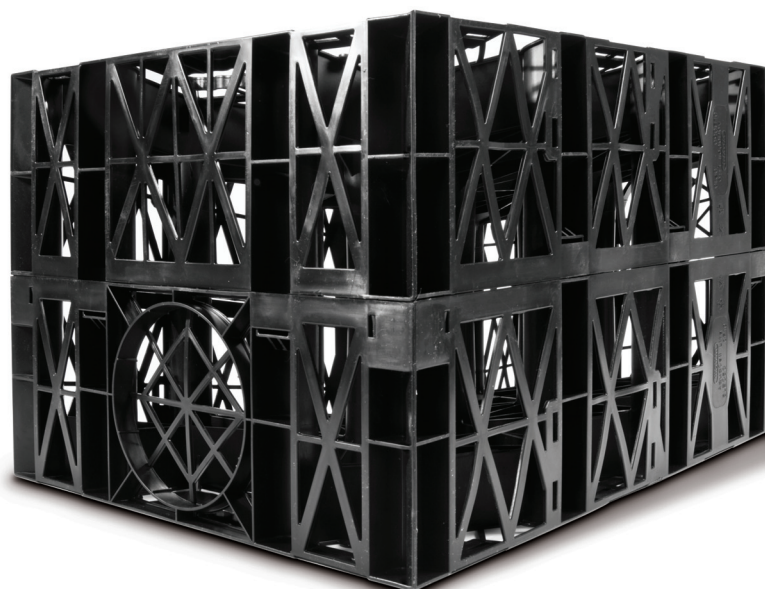

Available April 4th 2011

## Information Card

AquaCell Eco is the new sustainable replacement to AquaCell Lite. Manufactured from 100% recycled polypropylene

### Key Features:

- 1m x 0.5m x 0.4m    ■ 95% void    ■ 7Kg/Unit
- 100% black recycled PP
- Proven load bearing performance of 17.5 tonnes/m<sup>2</sup> vertically and 4.0 tonnes/m<sup>2</sup> laterally, therefore fit for purpose for landscaped and low loaded applications
- Built in 'hand holes' for ease of carrying
- Designed for landscaped and non-trafficked sites to 1.5m deep
- BBA approval pending (Certificate No. 03/4018)
- Compatible for use directly with AquaCell Lite (6LB050) and AquaCell Core (6LB100)

### Applications:

For soakaways and storage applications underneath:

- Landscaped areas                    ■ Playing fields
- Parks                                    ■ Domestic gardens
- Grass and leisure areas
